## **Providien Acquires Dynaroll Corporation**

SCOTTSDALE, Ariz. (Jan 2, 2013) -- Providien, LLC announced it has completed an acquisition of Dynaroll Corporation ([www.dynaroll.com](http://www.dynaroll.com)). Dynaroll is a vertically integrated contract manufacturer specializing in precision manufacturing, assembly and testing of advanced components for medical devices, medical robots, surgical equipment and medical disposable products. Headquartered in Sylmar, CA, the company is ISO 9001, ISO 13485, ISO 14001, OSHAS 18001 certified.

Founded in 1988, Dynaroll continues to expand its contract manufacturing business unit for medical device manufacturers by providing advanced mechanical and electromechanical solutions for many Fortune 500 Medical Device manufacturers. In addition to contract manufacturing services, Dynaroll is a leading supplier of miniature and instrument bearings to medical device manufacturers and other high-precision industries. Miniature precision bearings are a critical enabling technology in many cutting-edge medical devices and diagnostic and imaging systems. Dynaroll founder, Simon Harrison commented, "We are pleased to be part of the Providien team. Through Providien's experience and financial resources Dynaroll will be able to expand our capabilities and meet our customers' growing demands."

Providien President and CEO, Jeff Goble, stated "Dynaroll has unique technology strengths in high precision motion control and mechanical components and assemblies. The company is a high quality, sole source supply partner to the world's leading medical device companies." We believe that in combination with our existing Providien companies of Specialty Manufacturing, Inc (SMI), Integra Biotechnical, LLC and Plastics Engineering & Development (PEDI), we are better positioning ourselves to continue to bring value to our customers through our wide-array of contract manufacturing services."

### **About Providien, LLC**

Providien, LLC is a leading supplier of clinically superior medical devices and advanced manufacturing solutions for the life sciences industry. Providien has completed five acquisitions since its formation in June 2010. In addition to Dynaroll, these include San Diego-based companies – Specialty Manufacturing, Inc. (SMI), provider of plastic thermoformed component manufacturing, engineering and design services to the medical equipment marketplace ([www.smi-mfg.com](http://www.smi-mfg.com)); Integra Biotechnical, LLC, a medical device contract manufacturer that provides finished, sterile goods to leading medical device and pharmaceutical OEMs ([www.integrabio.com](http://www.integrabio.com)); Plastics Engineering & Development, Inc. (PEDI), a provider of outsourced assembly services, plastic injection molding, and engineering to the medical device and life sciences markets ([www.pediplastics.com](http://www.pediplastics.com)); and Emergent Respiratory, a manufacturer of respiratory care products ([www.eresp.com](http://www.eresp.com)).
